**EMPLOYER-PROVIDED LONG-TERM CARE BENEFITS TAX CREDIT
WORKSHEET INSTRUCTIONS**

This credit is available to employers that incur costs to provide eligible long-term care insurance to employees. For purposes of this credit, "employer" means any entity that employs one or more individuals performing services for it within this State. For a complete definition, see 26 M.R.S.A. § 1043. Eligible long-term care insurance includes coverage under a qualified long-term care insurance contract or under a long-term care insurance policy certified by the Superintendent of Insurance in accordance with Title 24-A. A qualified long-term care insurance contract is defined by IRC § 7702B(b) as any contract that provides coverage for qualified long-term care services. Qualified long-term care services means necessary diagnostic, preventive, therapeutic, curing, treating, mitigating, and rehabilitative services, and maintenance or personal care services, which are required by a chronically ill individual and that are provided in accordance with a plan of care prescribed by a licensed health care practitioner. The term "chronically ill individual" is defined by IRC § 7702B(c)(2). Qualified long-term care insurance contracts must also meet other technical requirements as specified in § 7702B(b).

The allowable Maine credit is equal to the lowest of:

- 1) \$5,000;
- 2) 20% of the actual costs incurred in providing long-term care insurance coverage to employees; or
- 3) \$100 for each employee covered by a qualified long-term care insurance contract provided by the employer.

The credit is limited to the regular income tax otherwise due (the credit does not apply to the alternative minimum tax), but any excess may be carried forward for 15 years.
